Web Designing Training

Static WebSite Design : A Basic Need For Many

Static web design is ideal for websites that require static content to be displayed. It can be in the form of a company's information or the products/services or standard information about an individual. The consistency coupled with the requirement of less scripting and HTML coding makes Static Websites highly demanded for displaying accurate information over a period of time.

Dynamic WebSite Design

Dynamic website designing is done with the use of static designing in addition to database linking with the web pages. We also provide training in ASP.NET, SQL, PHP and many other techniques to design and develop a web with dynamic designing.

Web Designing Course

Web designing is a creative field which requires lot of imagination and concept visualization. Web designing is about understanding the clients business and delivering a website as per the requirements. Client may need a Static Website or Dynamic Website to suit his business. Our web designing course will enable you to become a professional web designer, web consultant or web entrepreneur. In our website design course we strive to provide real time experience and in depth practical knowledge of the subject. We are offering the web designing course in regular slow track, fast track and weekend classes.

Student feedback and reviews

Suresh kumar(2021-2022)
MCA, Guru Kripa Institute

“ I had taken training in web designing from appilogics company, and my experience here was very good. ”

Vikrant Atal(2021-2022)
ITI Electrical, Him Techno

“ It was extremely helpful to understand the basic conflict management options. Applying these to a specific issue that I am dealing with helped me get past a big hurdle. Thank you! ”

Gaurav Singh(2022-23)
BBA, Chitkara University

“ I thoroughly enjoyed my internship this summer and now have very valuable experience under my belt . This will help me in future to get a job. I learned that customer service is hard you can not please everyone. I have learned more than i expected . All the employees of the company were very nice to me they helped very much to understand thing in very easy way . I learned and as well as enjoyed very much working here. ”

Naman(2021-2022)
Diploma, CSE, Government Polytechnic

“ All the staff members offer helping hand when need.The teaching as well as non teaching staff is good as well as cooperative.They taught me and made my all doubts clear.My overall experience was excellent. ”
